Office Action Summary	Application No. 10/657,546	Applicant(s) DIDCOCK ET AL.	
	Examiner Gerald Gauthier	Art Unit 2614	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 21 September 2006.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 1-18 is/are pending in the application.
- 4a) Of the above claim(s) _____ is/are withdrawn from consideration.
- 5) ☐ Claim(s) _____ is/are allowed.
- 6) ☒ Claim(s) 1-18 is/are rejected.
- 7) ☐ Claim(s) _____ is/are objected to.
- 8) ☐ Claim(s) _____ are subject to restriction and/or election requirement.

Application Papers

- 9) ☐ The specification is objected to by the Examiner.
- 10) ☐ The drawing(s) filed on _____ is/are: a) ☐ accepted or b) ☐ objected to by the Examiner.
Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).
Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
- 11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

Priority under 35 U.S.C. § 119

- 12) ☒ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
- a) ☐ All b) ☐ Some * c) ☐ None of:
1. ☒ Certified copies of the priority documents have been received.
2. ☐ Certified copies of the priority documents have been received in Application No. _____.
3. ☐ Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).
- * See the attached detailed Office action for a list of the certified copies not received.

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. **Claim(s) 1-18** are rejected under 35 U.S.C. 102(e) as being anticipated by Barsness et al. (US 7,085,758 B2).

Regarding **claim(s) 1**, Barsness discloses a messaging system comprising a plurality of distributed front-end messaging systems (214 on FIG. 2) and a centralized data store (230 on FIG. 2) associated with said distributed front-end messaging systems, the distributed front-end messaging systems being remotely located from one another and from the centralized data store (column 6, lines 4-17), the centralized data store being adapted for communication with said distributed front-end messaging systems over a network, the centralized data store including means for storing data associated with users of the distributed front-end messaging systems (column 6, lines 30-42), the at least distributed front-end messaging systems further including a respective means for storing respective different portions of the centralized data

(column 7, lines 12-22), the respective different portions being associated with respective subsets of the users of said distributed front-end messaging systems, such that at least one messaging function can be provided to a given one of the users of a given one of said distributed front-end messaging systems in dependence on the portion of the centralized data stored therein (column 7, lines 23-33).

Regarding **claim(s) 2 and 3**, Barsness discloses on item 214 Fig. 2, front-end distributor (claimed "centralized front-end messaging system") associates with database.

Regarding **claim(s) 5**, Barsness discloses on (column 7, lines 23-33), front-end distributor (claimed "centralized front-end messaging system") provides voice message services (claimed "at least one messaging function").

Regarding **claim(s) 6**, Barsness discloses on (column 7, lines 23-33), the front-end distributor (claimed "centralized front-end messaging system") distributes voice messages to voice message server (claimed "distributed front-end messaging system"). The front-end distributor must identify the voice message server for distribution of the voice messages.

Regarding **claim(s) 7**, Barsness discloses on (column 7, lines 23-33), operator data includes ANI (claimed "a calling number") and called party number.

Regarding **claim(s) 9**, the database (item 230 Fig. 2) as disclose by Barsness must have configuration data (database configuration).

Regarding **claim(s) 10**, Barsness discloses on item 214 Fig. 2, VRU (claimed "call answering").

Regarding **claim(s) 11 and 17**, Barsness discloses on (column 7, lines 23-33), call processing system (reads on claimed "subscriber access function").

Regarding **claim(s) 12**, Barsness discloses on item 214 Fig. 2, a plurality of independent voice message servers (reads on claimed "a respective voice mail domain").

Regarding **claim(s) 13**, Barsness discloses on item 224 Fig. 2, a switch.

Regarding **claim(s) 14**, Barsness discloses a method of configuring a messaging system, the messaging system comprising a plurality of distributed front-end messaging systems and a centralized data store associated with said distributed front-end messaging systems, the distributed front-end messaging systems being remotely located from one another and from the centralized data store, the centralized data store

being adapted for communication with said distributed front-end messaging systems over a network (column 1, lines 7-10), the method comprising:

storing, in the centralized data store, data associated with all users of the distributed front-end messaging systems (column 6, lines 4-17);

storing, a in the distributed front-end messaging systems, respective different portions of said centralized data associated with respective subsets of the users at of the distributed front-end messaging systems, and providing at least one messaging function to a given one of the users of a given one of the distributed front-end messaging systems in dependence on the corresponding portion of the centralized data stored in the given distributed front-end messaging system (column 7, lines 23-33).

Regarding **claim(s) 18**, Elliot discloses a centralized data store adapted for use in a messaging system comprising a plurality of distributed front-end messaging systems associated with the centralized data store (column 6, lines 4-17), the distributed front-end messaging systems being remotely located from one another and from the centralized data store, the centralized data store being adapted for communication with said distributed front-end messaging systems over a network (column 6, lines 30-42), the centralized data store including means for storing data associated with users of the distributed front-end messaging systems, the distributed front-end messaging systems further including respective means for storing respective different portions of the centralized data (column 6, lines 4-17), the respective different portions being associated with respective subsets of the users of said distributed front-

Art Unit: 2614

end messaging systems (column 7, lines 12-22), such that at least one messaging function can be provided to a given one of the users of a given one of said distributed front-end messaging systems in dependence on the portion of the centralized data stored therein (column 7, lines 23-33).

Response to Arguments

3. Applicant's arguments with respect to **claim(s) 1-18** have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Gerald Gauthier whose telephone number is (571) 272-7539. The examiner can normally be reached on 8:00 AM to 4:30 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Fan Tsang can be reached on (571) 272-7547. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
